Dear Des;

Re: Formation of new Health and Community Foundation

At the December meeting of Council several Councillors reported that they attended the very successful launch of the Bordertown Health and Community Foundation. To recognise the importance of this new foundation to the district Council unanimously passed the following resolution:

Res No 51 - Health Foundation - Moved Cr Dick, seconded Cr McLellan that Council show their support for the recently launched Bordertown Health Foundation by writing to them commending their initiative in setting up such a valuable and ongoing resource for the whole community.

Council congratulates those who initiated the establishment of this foundation and acknowledges the inaugural board members. Council hopes that the foundation can attract the funds it is looking for so that it can assist the hospital and other health organizations within the community.

We thank you for your efforts so far and wish the foundation a long and successful future.

Yours faithfully,

Robert Harkness
Chief Executive Officer
